

3 Kanal Relais HAT für Raspberry Pi

Artikel-Nr.:	RPI-RELHAT
Hersteller:	Waveshare
Herkunftsland:	China
Zolltarifnummer:	85364900
Gewicht:	0.093 kg

Übersicht

The RPi Relay Board gives your Pi the ability to control high voltage/high current devices, easily makes normal home appliances become intelligent.

Eigenschaften

- Supports Raspberry Pi A+/B+/2B/3B
- High quality relays, loads up to 250VAC/5A, 30VDC/5A
- Photo coupling isolation, prevent interference from high voltage circuit
- Onboard LEDs for indicating relays status
- Relay control jumper, allows to control the relays by custom pins other than the default pins
- Comes with development resources, including examples in wiringPi, WebioPi, shell, python, and bcm2835

Lieferumfang

- Relay HAT
- RPi screws pack (2pcs) x 1

What's on the RPi Relay Board

1. Raspberry Pi GPIO interface for connecting Raspberry Pi
2. Relay status indicator, for connecting target devices
3. Relays
4. Photocoupler (PCBT)
5. Relay indicator
 - LED on, relay NC is powered, NO is closed
 - LED off, relay NC is powered, NO is opened
6. Power indicator
7. Relay control jumper
 - When the jumper control the relay by default (ON) and in the example mode
 - When the jumper control the relay by default (ON) through jumper wire
