

A red SD Sniffer card, which is a specialized device for intercepting data from an SD card. It features a silver-colored SD card slot and a series of pins labeled D1 through D16, VSS, GND, VCC, and CLK. The card is shown at an angle, highlighting its compact design and the labeling of its components.

****Hinweis:** ****Dieses Produkt ist eine Zusammenarbeit und ein Teil jedes Verkaufs geht an den Designer für den Produktsupport und die weitere Entwicklung.**
